

Gecko intends to mine up to 1,1 million tons of salt per annum that will be transported by means of individual truck loads of 58 tons to the harbour in Walvis Bay. Gecko is also investigating transferring these loads onto road trains with an individual capacity of 116 tons (134 tons for the abnormal permit) by making use of private road sections.

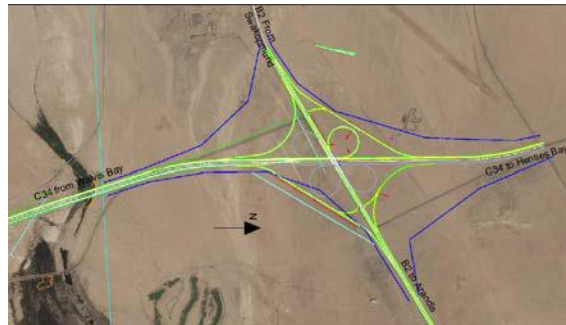

Objective was to produce a Traffic Memorandum by reviewing the relevant existing information available, assessing the transport situation and making further transport related recommendations. No fieldwork was allowed for in the desktop study.

TRAFFIC IMPACT ASSESSMENT

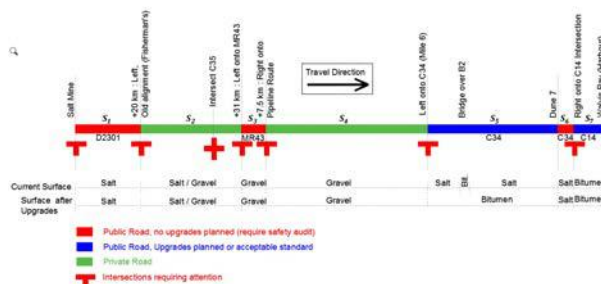

Cape Cross Salt

PROJECT STATS

Value	N/A - Study
Location	Erongo Region, Namibia
Client	Gecko Salt (Pty) Ltd
Start	08/2015
Finish	01/2016

- Project Management
- Civil

SERVICES

- Reporting
- Traffic data assessment & processing
- Investigations
