

Otjimbele Agriculture Pty Ltd. is implementing the Asparagus Agro-Processing Project in the Republic of Namibia. The project entails the production and processing of white asparagus, transforming it into a natural preserve. The production is aimed for the export market (Spain). The Client was granted 360 Ha at Etunda Green Scheme Irrigation Project and has a processing factory in Oshifo (Ruacana Municipality, Omusati Region).

Burmeister & Partners has been required to design and supervise the construction of a Warehouse /Storage Area (65x18mtrs) for the Asparagus Processing Plant. The Works include the construction of:

- Asparagus Warehouse
- Electrical & Civil Installations
- Fire protection installations
- External Works
